Subject: Dugway Pass Mine

Tom:

I have reviewed the original submission to UDOGM on the Dugway Pass Mine. The proposed operation was to originally disturb 4.1 acres. 0.37 acres was the portion of the road crossing BLM administered land. With the additional sampling to be done on BLM the acreage to be disturbed on BLM administered lands will increase to approximately 0.5 acres. Total disturbed acres will be approximately 4.35 acres. The reclamation contract and irrevocable letter of credit for \$18,750 is sufficient to meet the BLM reclamation bonding requirements. When the notice for the activity on BLM administered lands is accepted written confirmation of the acceptability of the bond amount will be sent as a cc to the UDOGM.

Thanks!!
